

“THE PERILS OF THE INTERNET OF THINGS” - TPSPS

Text:

<https://www.theguardian.com/technology/2015/mar/11/internet-of-things-hacked-online-perils-future>

THINK (30 min.):

In the text, find out ...

- how the Internet of things works
- the future of smoke detectors
- the future of advertising
- the future of work

PAIR (8 min.):

share your findings with a partner and tell her about them in your own words

SQUARE (10 min.):

Sit together in groups of four. Discuss benefits and downsides of the IoT. Two argue for and two against it.

PAIR (10 min.):

With a different partner write down a pitch with an idea for a known product that could be completely transformed with an internet connection.

SHARE (10 min.):

Present your pitches to the class.

Note down additional lesson vocab here:
